The Law Regulating Newspapers and Periodicals

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions
2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for all the numbers sent
3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills and ordered their papers discontinued
4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher and the payment of all arrearages, is prima facie evidence of fraud
5. Subscribers to newspapers or periodicals removing from one place to another within the United States are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription unless notice is sent of such removal to the publication office

Dr. LIGHTHILL
Has extended his stay in this city until November 17th.

DR. LIGHTHILL,
Surgeon to the Medico-Surgical Institute for the Treatment of Deafness, Catarrh, and Diseases of the Eye
NO 34, ST MARK'S PLACE, - - NEW YORK,
Is now at the Bangor House,
Bangor, where he will remain until *November 17th* one month longer than first anticipated, where he can be consulted on
DEAFNESS, CATARRH,
—AND—
DISEASES OF THE EYE
Noises in the Head,
Discharges from the Ear, Earache,
Catarrh in its various forms,
and all the various Diseases of the Eye
Successfully Treated.
Operations for Cross Eyes,
Cataract, Artificial Pupils
Fistula Lachrymalis, &c,
performed to the entire
satisfaction of the patient

FOR the last ten years DRS EIGHTHILL have paid special attention to the treatment of Diseases of the Eye, Ear, and Throat. They have practiced in some of the largest cities in the Union and in order to centralize their business and accommodate their patients they have permanently located in New York where one of the members of the firm with his assistants is constantly present to attend to their practice For evidence of their success in the treatment of the Diseases of the above mentioned Organs the reader is referred to the annexed notices of the press selected indiscriminately from a large number in their possession

HOME TESTIMONIALS.

CATARRH

This is to certify that I was afflicted with Catarrh in the worst form I had a constant discharge of mucous from my head into my throat Hardly pieces of mucous would come from my throat at my nostrils, after a severe effort to raise them which almost took away my strength I had a severe pain on top of my head and above my nose I also would lose all digestion easy In fact, I was completely run down Physicians would call my disease incurable Last Spring while Dr Lighthill was at Portland, by the persuasion of my friends I placed myself under his care and after two months treatment was *entirely* cured and have remained well up to this. WM H JAMES.
Portland, September 26th 1861

SPEAKING of Dr LIGHTHILL We are pleased to notice the success of Dr Lighthill during his stay thus far in the city The following remarkable case is thus attested:

To the afflicted in Bradford
I have this day been under the care of a new man by an operation of Dr Lighthill which restored to me my hearing of which I have been deprived for nearly 17 years My deafness came on gradually I am 54 years of age and reside in Winthrop
JOHN J THOMPSON
Bangor, Sept 20, 1861 *Bangor Times, Sept 21 1861*

Mr Editor—This is to certify that Dr Lighthill operated to-day upon my wife's eye for cataract or blindness Mrs Parks has been totally blind for one year After the operation, she could see, and directly knew the persons around her by sight which she has not been able to for over one year Respectfully WM H PARKS

Dr Lighthill at the same time, and also at the house of Mr Parks operated under fully upon Miss Mary Ann Kimball for cross eyes or strabismus, and in a short time straightened her eyes perfectly Miss Kimball resides with Mr Parks at Hermon, where both patients are doing, well and can be seen by those interested
MARY A KIMBALL
WM H PARKS
Hermon, Oct 4, 1861 *Bangor Times, Oct 5th*

ANOTHER CURE BY DR. EIGHTHILL. The following certificate attests the success of a difficult operation in which all skilful surgery for the cure of the rare disease of squinting up of the eye

This is to certify that Dr Lighthill straightened my right eye, which was turned up under my upper eyelid over since I was two years old. My age is 40 years, and I reside in Old town.
HORACE M DICKEY
Bangor, Oct 7th, 1861 *Bangor Times, Oct 7th*

Below is a description of Catarrh by Drs. Lighthill:

Catarrh.

Catarrh is one of the most offensive and deleterious diseases which affect the human frame Its seat at the commencement is the mucous membrane of the nose but, in time by the laws of its secretion such a perversion influences upon the general health, and now it extends itself to so many important organs, a short description of that membrane is requisite.
The gastro pulmonary mucous membrane commences at the edges of the lips and nostrils pervades through the nose and mouth and to the throat, from wisence it is continued throughout the whole length of the alimentary canal to the termination of the intestines, and also along the windpipe and its various divisions, as far as the air cells for the lungs, to which it adheres a tissue. From the human the membrane extends through the tear passages until under the name of conjunctiva, it spreads over the forepart of the eyeball and inside of the eyelids.
Other comes from the nose line the frontal, maxillary, ethmoidal and sphenoidal sinuses (small cavities situated in the bones bearing the same name.) A prolongation extends through the Eustachian tube to the line that passage and tympanum or middle ear.
The first stages is an inflammation of the lining of the nose It produces a feeling of uneasiness, heat and stiffness in the nostrils, which are often closed on one or both sides, caused by the thickening of the membrane from inflamation, soon a thin watery substance comes, excoriating that part of the skin with which it comes in contact. If the disease is not checked then, the discharge soon becomes thick and purulent, of a greenish yellow sometimes tinged with blood, with an odor more or less disagreeable, and, sometimes very offensive. The breath of the patient becomes so revoltingly offensive as to isolate him from society and render him an object of disgust to, himself. The discharge frequently drops down the throat, and has to be hawked up in order to obtain relief—the senses of smell and taste become greatly impaired and sometimes entirely lost—a disturbing headache makes its appearance as the fetid abscess become inflamed and neuralgic pain in the face and head, as soon as the other stages become affected If the inflammation extends through the Eustachian tubes to the middle ear the hearing becomes more or less impaired, if it extend down to the throat it gives rise to dyspepsia, bronchitis and consumption. The experience and investigation of the greatest surgeons in medical science have established the fact, that in two-thirds of the cases of Consumption, it commenced by inflamation and ulceration of the air passages. *Remember that the best and only cure of Consumption is catarrh cured.*
In connection with the treatment of Deafness, Drs Lighthill have met with Catarrh in its various forms, and become acquainted with the fluctuations in result it makes upon the general health, and with the alarming effect to which it preys in. They have treated hundreds who are literally worn out and emaciated by the disease, and who have been given up by their friends as incurable, and who had made their wills, and were waiting for death to release them from their misery, and have succeeded in restoring them to health and strength. It is that direction, and for

establishing a system of treatment which effectually and permanently cures the worst stages.
The treatment consists of remedies applied both local and constitutional The local ones are applied in such a manner as to come in direct contact with the diseased parts, far better and more effectually than it could be done by any means employed heretofore. The constitutional remedies are such as to exert a beneficial and curative influence on diseases of the mucous membrane in general and on this specific disease in particular
The remedies used, and the method of their application, are entirely original. o10

Dr. LIGHTHILL.
AN equal and normal circulation of the blood is health An abnormal that is to say an excessive or deficient circulation or stagnation of the blood is disease To illustrate—Apoplexy is the effusion caused by stagnation of the blood in that organ Diseases of the Kidneys, inflammation of the Liver caused by excess of the bile, &c by the same cause viz Improper Circulation, and from the same cause spring all minor forms of disease To discover a certain cure, then for these diseases, the first great enquiry necessarily is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make the grand discovery also
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that as the plan is move in their spheres and all vegetable life is governed by certain absolute laws so animal life is traceable in a fixed cause which produces or destroys and death, the certain effect, follows
Analysis of the red corpuscles of the blood shew them to be compounds of iron, sulphur and phosphorus
The air we breathe, we know to contain a very large proportion of oxygen
Oxygen brought in contact with a metal oxidizes or rusts electricity
Electricity brought in contact with a muscular fiber causes it to contract
These facts being indisputable, we have now the solution as to the motor or motive power of the heart The oxygen in the air we breathe coming in contact with the iron in the corpuscles of the blood produces electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tinged through the remotest arteries What then are the causes of Consumption, Dropsy, Palsy, Paralysis, St Vitus' Dance, Dyspepsia, Epilepsy Fever and Ague, &c, a deficiency of the red corpuscles containing the iron, sulphur and phosphorus which causes a deficiency of electricity and consequently an abnormal circulation The blood becomes watery colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in in short, almost every to possible disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ" we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease! Unfortunates who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules Ladies suffering any of the distresses known as female complaints be persuaded the "Blood Food" can cure you it has cured thousands of desperate cases where all hope has been given up Do not repent it, do not throw away your only hope The "Blood Food" is an unfailing remedy, give it a trial
An elaborate treatise carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party on the receipt of two 3 cent stamps Blood Food is sold by all druggists or when it cannot be had I will send 6 bottles, free of expense, for $4 Price single bottle, $1 It is put up in 8 oz vials, in yellow wrappers—the old kind, in small bottles, in red wrappers having been done away with—and bears the fac-simile signature of Lafrea & Dupont upon the face of the wrapper Beware of counterfeits and imitations

BOOTS AND SHOES
MADE BY
PLUMER'S PATENT ANATOMICAL LASTS.
[From J V C Smith M D formerly Mayor of Boston]
PLUMER'S PATENT BOOTS
The Undersigned has worn a pair of these Improved Boots and feels grateful to the Inventor for the comfort derived from them. The exact adjustment of them to every part of the under surface of the foot, is an improvement of much value which seems to have been entirely overlooked till Dr Plumer planned his Last and I look upon *truly scientific principle*
Those who have once had an opportunity to test the real advantages of the Plumer Patent Boots will hardly be reconciled to wear any other
J V C SMITH
Boston July 26 1861

J C PLUMER, M D
Dear Sir I am greatly delighted with your newly invented boots which I have worn during the present winter and I only wish that the world should have seen so simple and perfect a thing half a century ago Any one with sight in common sense and a mouth its reflect in vain to see that your PATENT BOOTS AND SHOES are *perfectly adapted to the foot* that is a beautiful piece of *Nature's Mechanism* giving to every portion its *natural* and equal support and I am sure that those who once make trial of it, will never more go back to the old fashioned boots and shoes which are so full of Corns Bunions and a thousand other troubles Your *Patent Boots* seem to be a part and parcel of our *Physical structure* supporting the foot firmly *giving it ease* and promoting human comfort to an eminent degree especially in walking over rough surfaces
I wish I knew of some means by which I could make known to every man, woman and child in Christendom the value and importance of your invention.
Very truly yours
MORRIS MATTSON M D
56 Summer Street
PORTLAND July 12, 1860

Dr PLUMER—
Dear Sir Having learned the principle upon which your Anatomical Last is made I was favorably impressed as to its efficiency in relieving the faculty which all have experienced who have to walk considerably over severe pain in the first after much walking After having put the boots made upon the Anatomical Last I found my entire pedestrianism than realized I can walk nearly all day without experiencing the above named difficulty in the least degree I also consider it a turning process of breaking in my feet for they were as easy at last as after they had been worn

In Peace or War, on land or sea,
Our flag, the sign of the free
Bright emblem of Columbia's glory!
Shall tell to coming years the story,
How, stout of heart and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life,
On tented field, 'mid fearful strife,
Still on! 'till through the sulphurous cloud
It broke in triumph, Treason's shroud.

OUR SEABOARD DEFENSES. One reason, and a very probable one, given for the production of Secretary Seward's letter to the Governors of the lake and seaboard States is that many of the authorities of those States had applied to the General Government to authorize certain expenditures upon fortifications on the lakes and seaboard. At this time when the General Government is so absorbed in the details of the rebellion, it simply requests the several States to relieve the officers of the Government of an important branch of the public business and divide it among themselves, the General Government subsequently to assume the pecuniary responsibility of the works constructed and the improvements made on our national fortifications. It is well known that ever since the commencement of the war the people and authorities of the Atlantic States have been desirous of having more effectual coast and river defences, and a strengthening of the fortifications at different points—not merely or chiefly from fear of a war with England, but to be properly guarded against any possible piratical attempts which might be made from the South. These wishes have undoubtedly been made known to the General Government, and may have produced the circular referred to as a response. Whether so or not, we do not agree in the censure bestowed in some quarters upon its publication. It can have no ill effect upon our relations with England, and may do good. If the British Cabinet is disposed to assume a hostile attitude against this country, the disposition will not be increased by the recommendations contained in the circular, if disposed to be friendly, it will certainly see no cause of offence in these recommendations.

With the exception of California, Maine is the most distant of the loyal States from the actual seat of war, and is of course without the special stimulus to patriotic exertion which is felt by the Western and Border States, where the danger of invasion is at their very doors. But notwithstanding this position, Maine, (as we demonstrated yesterday) stands equal to almost any of her sister States in the amount of aid which she has given to sustain the Union and the Constitution—and no one of the Governors of the loyal States has been more active, more unremitting, more self sacrificing in his efforts to raise and forward troops to defend the Government, than Governor Washburn of Maine.

THE CURRENCY OF DIXIE. A short time since a farmer residing in Fairfax County, Virginia, visited Alexandria to buy some flour and salt, with the following currency—Corporation of Warrington, Va., $1 and 50 cent notes; Town of Leesburg, 12½ cent notes; Manassas Gap Railroad Company, 50 cent notes, J. C. Gunnell of Fairfax, 25 cents; City of Richmond, $2 and $1, and 50 cents; Bank of the State of South Carolina, $1; Manufacturers Bank, Richmond, C. W. Purcel, $1; Bank of Winchester, $1; City Bank of Richmond, $1; Corporation of Charleston, 50 cents; Corporation of Winchester, 50 cents. Salt and flour could not be had for the most of these. This is but a small sample of the issues of every village, city, or town now in the Confederacy. When resumption day comes there will be awful times.

COL. (SENATOR) WILSON NOT RESIGNED.—Col. Wilson of the Massachusetts 22d has not resigned. According to previous understanding, he intended to surrender his command to his Lieut. Colonel, an army officer, himself holding a position on Gen. McClellan's staff until the meeting of Congress. Yesterday he accordingly bade farewell to his men, but today, learning that they, with other regiments, had orders to hold themselves in readiness to march, he resumed his place at their head.—N. Y. Tribune.

Be not angry that you cannot make others as you wish them to be, since you cannot make yourself what you wished to be.

A Washington letter, writing for several distinguished rebels, has endeavored to protect their property from possible confiscation or injury, by letting it for merely nominal rents to members of the diplomatic body, some of whom at first supposed at the fine houses offered for next to nothing; but their eyes were soon opened and the mansions of Slidell, [illegible] and others, are still awaiting tenants.

[illegible] FROM THE WAR. A report by [illegible] of the New York Ninth Regiment [illegible] in an incidental way that in [illegible] said Bolivar [illegible] something of real war, and that they met the crisis well. The lieutenant had under his command a piece of light artillery and was ordered forward under circumstances which he thus describes—

"We immediately passed up the street, which runs in almost a direct line from the destroyed government buildings to Bolivar Heights, under a scorching fire of shell, canister and spherical case shot, which the enemy poured in upon us from a thirteen pounder rifled gun and an iron thirty two pounder, stationed on the street running around Bolivar Heights. The enemy's aim was remarkably accurate, not one of their projectiles striking more than twenty feet from us while coming into battery; one of their shells fell but two feet in front of the lead horses of the gun, and simultaneously another passed under the ammunition chest on the limber. While waiting for the first time an an unexploded cannister passed just over the piece, and between the cannoneers.

The men held their ground, however, opened a fire with shell, silenced the thirty two pounder at the second shot, advancing as they fired. The rifled gun was brought to bear in a new position but after two shots a shell from the New York piece struck it on the muzzle, glanced and tore off one of its wheels. There was in this fight, also, a genuine charge of bayonets, gallantly made by our men."

A correspondent of the Louisville Journal, who has encountered a traveler from the far South, gives this specimen of his news:

"There are now in the State of Georgia alone not less than 32,000 men in the service, but the State is unable to arm more than half that number. An extensive foundry for the manufacture of cannon has been established at Atlanta, and large numbers of heavy field pieces and some siege guns have already been turned out. Georgia had sent 5000 troops to Virginia, but when her coast was seriously threatened she recalled them, offering to substitute 5000 raw recruits. The original 5000 were not returned to her, however. The Gulf States have cannon in abundance, but are sadly in need of muskets and small arms. The Bermuda, which ran the blockade and arrived at Savannah, brought over but six thousand five hundred stand of arms, and not the almost fabulous number accredited to her."

THE CRISIS OF THE CAMPAIGN. We believe that we have at length drawn near to a stage in the campaign critical to this extent, viz: that if we fail, our footing will be so changed as to make an extra demand upon our resources, and perhaps to require a new policy, in order to carry out the unquenchable determination of the loyal people; while if we succeed, the rebel conspiracy will have been so fatally shattered that its extinction will be certain and may be rendered speedy. Whether this is granted or not, none will dispute that a crisis, unprecedently grave and influential, has been reached. It is evidently about the time which preparations have indicated as suitable for a grand advance movement from Washington, as it occurs with the latest available season for marching over Southern soil; with the full preparation of our troops, who seem now to be provided with everything, except winter quarters; and with the sailing of the grand naval expedition, whose operations were intended to be supplemental to those of the land forces.—Boston Journal.

THE CAVALRY REGIMENT. The Kennebec Journal of Thursday says

There are now over a thousand of the Cavalry Regiment in camp, and the full number required will be here by the last of the week.

Seven hundred horses have already been purchased and most of them are here, and the complement will be made up in ten days. There probably never was in this country a Regiment of Cavalry enlisted equipped and ready to take the field in so short a time as this.

The following Company officers have been designated:

Company A—Captain, Warren L. Whitney; 1st Lieut. Charles S. Crosby; 2d Lieut., Sidney W. Thaxter.

Company B—Captain, Jonathan P. Cilley; 1st Lieut., Wm. T. Coleman; one vacancy.

Company C—Captain, Robert F. Dyer; 1st Lieut., Dudley Hanes; 2d Lieut., ——— Kimball.

Company D—Captain, Charles H. Smith; 1st Lieut., Andrew B. Spurling; 2d Lieut., William Montgomery.

Company E—Captain, B. H. Putnam; 1st Lieut., O. A. Ellis, one vacancy.

Company F—Captain, Nathan Mayhew; 1st Lieut., Stephen Boothby, 2d Lieut., James C. Stevens.

Company G—Captain, H. J. Burbank; 1st Lieut. ——— Blethen; 2d Lieut., ——— Virgin.

Company H—Captain, G. J. Summat; 1st Lieut., Charles H. Baker; one vacancy.

Company I—Captain, Louis O. Cowan; two vacancies.

Company J—Captain, George Pierce; 1st Lieut., John D. Myrick; one vacancy.

Company K—Captain, E. H. Jennings, 1st Lieut., Constantine Taylor, one vacancy.

Companies L and M not yet designated.

Dispatch to the N. Y. Tribune.

WASHINGTON, 23d.

The report made by Adj. Gen. Thomas of his recent examination into the administration of the Department of the West by Maj. Gen. Fremont, was this morning considered in full Cabinet meeting. With the reluctance which hesitates to injure a distinguished man, and to wound and disappoint the friends whom a popular leader gathers in his career, all the members of the Cabinet slowly pronounced their judgments that the interests of Missouri and of the Union required that Gen. Fremont should be superseded in his command by Maj. Gen. Hunter. The order to this effect will be issued tomorrow.

Per contra to the above, the New York Times of 23d says:

A Cabinet meeting in reference to the case of Gen. Fremont was held yesterday, at which, our correspondent assures us, it was decided not to interfere for the present with Gen. Fremont in his command. Meantime, however, Judge Davis, of Illinois, has been commissioned to take testimony in reference to the contracts made in the Western Department, and it is understood that whatever bills he may pass will be paid.

CAPTURE OF A PORTLAND VESSEL BY A PRIVATEER. Last evening's mail brings information that the brig Granada, of Portland, Captain Pettingill, from Nuevitas for New York, was captured on the 13th, in lat. 33, lon. 71, at midnight, by the privateer Sallie, of Charleston. The captain, 2d mate and two seamen, were taken on board the pirate, and on the 16th were transferred to the British schooner Greyhound, which arrived at New York yesterday. Mr. Butterfield, the 1st mate, was detained on board the brig to navigate her into Charleston or Savannah. The cook, a white man, and some seamen volunteered to go on board the pirate.

The Granada had a cargo of 400 hhds. sugar molasses, and a quantity of cedar. She was owned by Messrs. F. Randall & Son, 1-8; Drake & Davis 1-16; E. G. Willard, 1-8; Capt. A. J. Pettingill, 1-16; all of this city, and T. & T. J. Dunn, 1-4.

The Sallie was formerly the schooner Virginia of Brookhaven, of 140 tons, and has a crew of 40 men. She is commanded by Captain Libby, formerly of the ship Gondar, of Charleston. When last seen she was steering [illegible]. She [illegible] the blockade [illegible] on the [illegible] of the 10th. [illegible]—Portland Adv.

FIRE. About 6 o'clock last evening fire was discovered in the foundry of Messrs. Hinckley & Egery, at Drummond's Mills in this city, about half a mile above Kenduskeag Bridge, and before the engines could reach the spot, the block of buildings containing the foundry and machine shop, was in flames. Hand engines Nos. 3, 4 and 6, were on the spot as soon as could be expected, and with the reserve engine, "Old Three," played steadily and energetically upon the fire; but it had obtained too great headway to be subdued, and the whole establishment, with all its machinery, was destroyed. The lumber piled out from the adjacent saw mill of Messrs. Mason & Co., was for a time in great danger, but was saved.

The machinery for the new propeller now nearly finished on the Brewer side of the river, was mostly completed and had been nearly all sent to the vessel. A small portion was lost.

The loss of Messrs. Hinckley & Egery is from $25,000 to $30,000. The insurance amounted to $9,500.

Soon after the fire broke out, the new steam fire engine "Union," although not yet accepted by the city, was taken to the scene of action, and steam raised upon her in good season; but from some cause which could not for a long time be discovered, she did not work. Subsequently it was found that the air-chamber was not properly screwed on, and the difficulty being remedied she then threw two streams of water with great steadiness and force.

By this fire a large number of men are thrown out of employment at the commencement of our long winter season, which is one of the most calamitous features of the disaster.

We are rapidly becoming independent of the South. Cotton comes to us across the water, and now we are about raising our own pea-nuts—Mr. Stephen Bowe of Auburn having just "laid on the table" of the Lewiston Journal two or three of the plants with nuts attached, raised by him.

The Maine Lodge of Odd Fellows, at Portland, have invested eleven hundred and fifty dollars, of their funds, in Treasury Notes and other Government securities, in aid of the war for the Union.

There is a prospect now that in three weeks at least the recruiting in Maine will bring up this State's quota of the five hundred thousand men.—Kennebec Journal.

Portland has twenty-six churches and seventy-six public schools, which is one each for every thousand inhabitants.—Exchange.

Bangor, with 16,000 inhabitants, beats that out and out. We have not so many churches, to be sure, (although we claim full as much religion) but we can brag of sixty public schools, of all grades.

The Pamphlet on "Cheap Cotton by Free Labor," which has been noticed in our columns, was written by Edward Atkinson, Esq., of Boston, Treasurer of the Franklin Company of Lewiston. It is a pamphlet of marked ability, and is attracting the candid attention of the press.

PAINFUL ACCIDENT. At Danville Junction recently, a lad in the employ of Mr. Stinchfield went out to feed the cattle, and was removing a box which was lying in front of a cow, when the animal drew up her head suddenly, the horn striking the boy's face, passing into and destroying the eye.

A STRONG STORY. The Lewiston Journal tells the following:

A gentleman who has a very pretty little black and white dog, was going up the street one night this week, his dog being, (as he supposed) in company with him, being a very smooth looking black and white animal near him, thinking of course that it was his dog, he came close upon him, when the animal, which was none other than a skunk, opened fire, entirely discomfiting him with a characteristic charge.—The gentleman in the troubles of the moment, not bethinking himself of the mistake he had made in taking a skunk for a dog, stormed away at his poor cur, putting a finality to the joke by adding, "I swear, I believe my dog has been eating onions!"

ONE OF THE VETERANS. In allusion to the recent celebration of the fiftieth anniversary of the settlement of Rev. Dr. Tappan over the Congregational Church in Augusta, Mr. Eden, the veteran editor and publisher of the Dover Observer, says: "We were at the raising of the meeting-house, at the dedication, and at the ordination of the Rev. Dr. Tappan in Augusta, in 1809; We were also present at the funeral of the Purinton family in 1806, and visited the house of the murderer before the bodies were laid out."

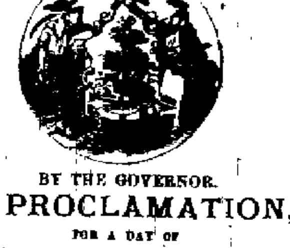
A letter from the 10th Maine Regiment from Baltimore states that the regiment would have sailed from Annapolis with the Naval Expedition, had it been furnished with arms, which had not been distributed to the regiment when the letter was written. The regiment is now assigned to Gen. Lander's Division, which is to be stationed near Wheeling, Va. So says the Lewiston Journal.

A "Secesh" Horse. Wm. Fisher, Esq., of this city, has now at his stable a bay horse, which the fortunes of war placed in possession of Col. [illegible], who [illegible] Virginia.—Belfast Journal.

The Lewiston Falls Manufacturing Company, Col. Frye, Agent, are running at full speed on a Government contract of flannels and blankets. The contract includes all the goods that the mill can manufacture up to the first of January. The Company are making about 460 yards of flannel and 400 yards of [illegible] each day.

[illegible] According to a correspondent of the Kennebec Journal's [illegible] Volunteer Maine [illegible] on the 16th. [illegible]

STATE OF MAINE.



BY THE GOVERNOR.

A PROCLAMATION,

FOR A DAY OF

Public Thanksgiving and Praise.

In this time of our country's affliction, and amidst the responsibilities and trials occasioned by the unnatural and unprovoked civil war in which it has been involved by wicked and desperate men, let us illustrate our loyalty to the Sovereign Ruler of the Universe by a cheerful submission to his will, and an unfaltering trust in the wisdom of his Providence; and the beneficence of His purposes: let us bless and praise Him for His great goodness and loving kindness to us His children.

He orders all things well.

Let us thank Him for the innumerable favors and benedictions which he has showered upon us, manifesting His continual presence and fatherly care, and picturing even the most serious habit of our lives with so many golden threads of happiness, for the inestimable boon of health, for the genial skies which He has made to smile upon us, filling the garners of the husbandman, and "affording all manner of store," for the educational, charitable and religious institutions of our beloved Commonwealth; for its equal and just laws; and for its countless homes of peace and affection.

And let us rejoice that we have a country worthy of our devotion and love; that the government of the fathers, established to secure the blessings of liberty and justice, and to promote the common welfare, still stands firm and that in the intelligence and patriotism of the people; that He has given them grace and strength to defend and preserve it against the machinations of the enemies of freedom and humanity; that, rising above the petty divisions and the importance and miserable clamors of ordinary times, they have been made one in a holy zeal and an indomitable purpose to preserve the wisest and best government ever vouchsafed to man.

Let us bless God that long and uninterrupted years of material prosperity have not been permitted to sap the virtues or waste the strength of the people, and that when the hour of trial came, and the fruits of many generations were to be saved or lost on the field of battle, the passion of national patriotism became at once the rule, and not the exception, among them; and men of all professions, trades, occupations, parties and opinions, rallied at the earliest note of alarm, with an alacrity commensurate with the magnitude of the dangers which encompassed them.

On the eleventh of November, old style, corresponding to the twenty-first of the same month, new style, 1620, the immortal Compact was signed on board the Mayflower, by our Pilgrim Fathers, and on the same day that vessel first trod the soil of New England.

In grateful recognition of our vast indebtedness to the wise and devoted men who are pattern in these most important events, and in commemoration of the transactions, in which it has been truly said, humanity recovered its rights and instituted government on the basis of equal laws for the general good, I have thought it to designate the anniversary of their occurrence for the celebration of the yearly Festival of praise which is time-honored custom has prescribed.

I, therefore, with the advice of the Council, do appoint THURSDAY, the twenty-first day of November next, and the two hundred and forty-first anniversary of the birth of popular constitutional government, to be observed by the people of this State as a day of Public Thanksgiving and Praise; and [illegible] that day may we all be led to a deeper and more perfect appreciation of what we owe and have to the cause which our fathers so nobly began. Let us repair reverently and with hopeful spirits to our temples of religious worship, and with our rejoicing and [illegible] hearts, praise God for the privileges and blessings, the duties and hopes, which are ours through their sacrifices and fidelity. [illegible] the fortunes of a glorious Past, let us, as with manly hearts, prepare for the responsibilities in the trust that with these will come, also, the triumphs, of a yet more glorious Future.

Given at the Council Chamber, at Augusta, this twenty-fourth day of October, in the year of our Lord one thousand eight hundred and sixty-one, and of the Independence of the United States the eighty-sixth.

ISRAEL WASHBURN, Jr.

By the Governor,
JOSEPH B. HALL, Secretary of State.

Daily Whig and Courier.

[Dispatches to the Evening Papers.]

The Lower Potomac Blockade—Vessels go round to Annapolis.—Gen Naval Expedition at Ft. Monroe.—Favorable Weather for its Preparation.—News from Missouri.—Price's Army Retreating.—Position of Federal Forces—A Rebel Camp Broken Up.—Conviction of One of Jeff. Davis' Pirates.

WASHINGTON, 24th

Captain Parks, of the tug Murray, has arrived from Indian Head and reports the George Page seen between Shipping Point and Evansport yesterday afternoon It is supposed she ran out of Aquia Creek, under the darkness and fog during the prevalent storm on Tuesday night She crossed over to the Maryland side yesterday afternoon, and Captain Parks with his glass could see she was crowded with men She was observed to make only one trip The river there is probably a mile and a quarter wide

The Page, while on her trip, fired three shells at the Maryland shore in the direction of the position of the 7th regiment of Rebbles brigade. Several small boats have been observed crossing at or near the same point

There were lying at Indian Head yesterday the Harriet Lane, Yankee, Hale, Wyandotte, Hobart and Murray

The wood schooner reports that all the government transports at Smith's Point have gone around to Annapolis

NEW YORK, 24th

Washington special dispatches state it is understood that the rebel steamer George Page is cruising between Aquia Creek and Shipping Point to pick up stray transports.

FORTRESS MONROE, 24th

The weather has been most favorable for completing the enormous preparations for the expedition Numerous vessels and transports have arrived, and Hampton Roads presents, especially at night, a magnificent appearance

The Spaulding will not leave for Hatteras before Saturday

WASHINGTON, 24th

The horses and mules of the army have been put on short allowance, as it is not possible for the railroads to keep the forage department supplied A remedy is talked of for the threatening evils of a short supply of hay and oats, by the construction of a railroad from here to Wolftungham on the Patuxent, a distance of 20 miles.

ST LOUIS, 25th

A gentleman from Gen Sigel's advance, reports that Price had left Cedar County and was retreating towards Greenfield, Dale county — Gen Sigel's advance guard was near Bolivar Tuesday evening, and his main body at Quincy

There are large forces at Osceola and Stirges' command is one day's march behind Sigel was about as far South as Price, but some 25 miles east, evidently aiming for Springfield to cut off his retreat South, while Gen Laine was only two days' march north of him

Gen Fremont and staff were at Pomme de Terre river, en route for Quincy

Hunter's and McKinstry's divisions were marching toward Warsaw

Pope was marching on Leesville via Sedalia, and Asboth was at Warsaw The bridge at Warsaw was completed and our troops were to begin crossing Wednesday

The general belief at Warsaw was that Price could not get away, but would be compelled to fight or surrender

A detachment of U S cavalry broke up a rebel camp at Buffalo, ten miles from Coal Camp Creek, on Tuesday night, killing 17, wounding a large number, taking 90 prisoners, a num ber of horses, and 22 wagons

PHILADELPHIA, 25th.

At the trial of Wm Smith, one of the crew of the Jeff Davis for piracy, a verdict of guilty was returned by the jury, it being out only half an hour

WASHINGTON, 26th.

Private accounts from the Upper Potomac this morning represent that the soldiers reported as missing are from time to time coming in, while others carried down by the current of the river are known to be now under shelter in tents on its banks

HAYES ARCTIC EXHIBITION.—The Mercantile Society of Nova Scotia gave a dinner to Dr Hayes, commander of the late exploring expedition to the Arctic regions, in the Halifax Hotel, Halifax, N S, on Monday evening of last week at which the Doctor gave the following brief account of his enterprise

"You have intimated to me, Mr President, that a sketch of our voyage would be acceptable to the gentlemen who honor me with their courteous attention We visited Smith Strait on the 20th of August of last year Heavy ice and stormy gales prevented our penetrating far within the Strait and after being twice in jeopardy among the bergs, and three times driven out of the Strait by northeast gales, we were forced to go into winter quarters on the east side of the Strait, in lat. 78° 17 8 I expected to have reached the west coast, and to have secured a harbor near latitude 80° My plans of exploration were dependent upon dogs, of which an ample stock had been obtained in Southern Greenland Most of these animals died during the winter, and I was obliged to take the field last spring with a weak force, and in an unfavorable position I carried with me a boat mounted upon runners for service on the open sea to the northward After a trial of nearly a month it was found that the boat could not be transported across the Strait, and I accordingly sent it back, and with three companions and two sledges drawn by dogs, I continued northward On the 18th of May our provisions were exhausted and we returned, having reached latitude 81° 35' a degree of Northing which I believe not to have been exceeded by any other person, except Sir Edward Parry The land which we explored is the nearest to the North Pole of any which is known Beyond that land I believe there exists a perpetual open sea which may be navigated For this purpose, however, steam power is necessary

It is my purpose to renew the attempt next year, if circumstances prove favorable, and I am still of opinion that with steam power a strong force of men and logs and a well organized system of advance depots, the North Pole can be reached"

A NARROW ESCAPE OF DR HAYES'S PARTY On the 16th of Aug, 1860, the vessel sailed North A few days after leaving, the current carried them against a very large berg, the point of which overhung the vessel While in this position the berg commenced to rock, indicating that it was about to turn over A line was run out, and the vessel was towed from the berg, so that when it fell it but just grazed the boom

Hon Samuel Hooper was nominated by Congress yesterday in the Fifth District, as all the vacancy occasioned by the resignation of Mr Appleton The Convention was called under the auspices of the Republican District Committee, but the terms of the call were broad and liberal, and the Convention embraced many high characters who have not heretofore been prominently identified with the Republican party.—*Boston Journal*

LATEST

Affairs at Edward's Ferry.

TELEGRAPH LINE OPEN TO CALIFORNIA.

LATER FROM EUROPE.

EDWARD'S FERRY, 24th, P M

The rebels during this afternoon were busily engaged in erecting their fort between Leesburg and the river, fronting Edward's Ferry. They had previously removed their advance, but from their movements it was judged they were engaged in replacing them The fort is located on the crest of the first range of hills from the river, several hundred yards to the left of a piece of woods, with a breastwork connecting it with and extending into or in the rear of the woods. To the rear of this creation is Leesburg

Parties of horsemen have at different times the day come up to the fortifications and viewed our batteries ranged along the mills above the ferry

Between the fort, hill and Leesburg, evidently rests a large rebel force The smoke from their camp fires have been discernable all day — it is believed, however, that their main body lies nearer and directly opposite the Ferry — They have not exposed themselves in any force, but their pickets and small recruiting parties have several times been seen.

During the afternoon a train consisting of about 100 wagons appeared on a hill to the right of Leesburg, and encamped there under the lee of a piece of woods.

Towards dark a considerable number of cavalry were seen approaching a farm house near the river, a mile above the Ferry, where during the afternoon several bodies of officers had paid visits. It is thought that this house had been occupied as a headquarters of some brigade or division

The regiments engaged in the affair of Monday have not yet completed their reports, of losses sustained They will be made as perfect as possible and released tomorrow

The various regiments located in this region are endeavoring to make themselves as comfortable as the limited facilities of the country will admit.

CLEVELAND, 25th

The following message from H W Carpenter, President of the California State Telegraph Company, was received here today

"SAN FRANCISCO, 25th

To J H Wade, President of the Pacific Telegraph Company —We greet you across the continent You beat us by a day or two, but we forgive you, and for it receive our congratulations

[Signed] H W CARPENTER"

NEW YORK, 16th

The overland telegraph to California is completed The following despatch was received this afternoon

SAN FRANCISCO, 25th

To the Mayor of New York—San Francisco to New York sends greetings and congratulates her on the completion of the enterprise which connects the Pacific with the Atlantic — May the prosperity of both cities be increased thereby and the progress of this important work meet with honor and reward

(Signed,) H P T CURTENBRAKER.
Mayor of San Francisco

PHILADELPHIA, 25th

The steamer Boston arrived this afternoon, and reports that she passed the steamer Keystone State with the prize Saltvor in tow, below this morning She has not arrived at the navy yard

NEW YORK, 25th

The Tribune's special Washington despatch says the surgeon in charge at Poolesville telegraphed that the wounded are not coming to Washington that they are well taken care of there, and doing remarkable well

A letter from Edward's Ferry, from the Agent of the Sanitary Commission, says there are 175 wounded in our hands 47 of the dead were buried yesterday, by permission of the rebels — Probably 50 were drowned in attempting to cross the river, and probably 400 or 500 are prisoners

NEW YORK, 26th

Steamship Africa, from Liverpool, Arrived at 5 30 this evening. News as reported

PHILADELPHIA, 25th

Dr Jeffries, Surgeon of the steamer Mystic, was sent to Fort Lafayette, last evening, for refusing to take the oath of allegiance

Steamers Hatteras and Miami will sail shortly on a Southern expedition

ST JOSEPH, 26th

The Pacific Telegraph was completed to San Francisco yesterday, and was in fine working order last evening The first message transmitted over the line was from Stephen J Field, the Justice of California, (in the absence of the Governor) to Abraham Lincoln, President of the United States.

In consequence of the line being closed east of here before we received notice of the line working last night, we were obliged to hold the message with others, over night. The enterprise is a complete success. Press despatches and private business for sended from here up to 12 o'clock last night, were laid before the public in California this morning.

WASHINGTON, 26th.

The following list of the wounded in the Engagement of Thursday at Edward's Ferry was received today at headquarters from Poolesville by telegraph

In California regiment, Lieut Col Wistar in the right elbow joint, Capt Lewis Brendell of company G, contused wound of the back, Lieut Robert Templeton of company K, in the right shoulder, Lieut Frank Wade of company D, in the right shoulder, Lieut R Templeton, company K, left shoulder; Sergeant Maj Herbert Bauman, company K, a flesh wound in right side and elbow Color Sergeant Randall

ST JOHNS, N F., 25th

Steamship City of Baltimore from Liverpool 16th and Queenstown 17th, passed Cape Race at 7 o'clock this evening, and was boarded by the new yacht of the Associated Press. Her advices are four days later than those by the Africa.

GREAT BRITAIN.

It has been decided to raise $35 000 to repair the steamer Great Eastern by a second mortgage of 10 P cent.

The Earl of Ravensworth launched a vessel at Newcastle, deplored the disaster which has befallen the United States, but said that he could not see that harmony could be restored either by the surrender or subjugation of the South.

The English Government has no immediate purpose or interest in the matter, but must watch closely what happens, and if occasion offers, use its influence in the cause of freedom and humanity.

The Duke De Aumale in a letter, replying to the Bordeaux Bank fetes the American Army, and on the navy also.

Mr Slidell's last letter to the Times dated from Wimereux. He says he heard a promise of immediate recognition of the Confederate States by the Emperor Napoleon simultaneously with that of England and France.

The Times has thrown the cold water of

party in England that seeks to embroil England with the United States in order to reopen the cotton trade.

Parliament has been unofficially prorogued, contrary to the 17th of December.

France.

The Paris Bourse has been unusually active in the funds. Rentes 69 65

The alleged letter of the Emperor to the King of Prussia on Italian affairs is pronounced a mere deception

It is reported that the French naval reserve is to be kept in such a condition that a large fleet can be got ready in an incredibly short time

Italy.

Delamarmora has accepted the command of the forces in the Neapolitan Provinces. He does not have the civil powers enjoyed by Cialdini.

Prussia.

The King and Queen of Prussia made a solemn entry into Konigsberg on the 14th. The ceremony was brilliant and imposing

Poland.

A proclamation was published at Warsaw on the 14th declaring Poland in a State of seige.—The military had again occupied the public squares of Warsaw The national demonstrations had been fixed for the 15th. There is no news as to the result.

Spain.

The cotton factories of Spain had been closed for the lack of raw material.

Turkey

The Turks had commenced the invasion of Montenegro The Prince of Montenegro protested against it

India, China and Australia

Further telegrams by the India, China and Australia mails had been received The mails would be due in London on the 18th News unimportant.

The Calcutta market was active. Cotton goods advancing Freights drooping

New Publications.

THE HARBINGER OF HEALTH, containing Medical Prescriptions for the Human Body and Mind By Andrew Jackson Davis. Complete in one volume. New York A J DAVIS & Co 1861

This work is for sale in this city by ALDEN BARTLETT The title sufficiently indicates the nature of the work It is in good substantial binding

THE SANTA ROSA AFFAIR The Mobile Advertiser of the 11th instant does not seem to treat the Santa Rosa affair as a victory On the contrary it calls the news of the battle a little rose-colored as at first published, and says the coup was made at a considerable loss

From letters, extracts of which are published in the same paper, we glean the following passages.

"I'll tell you we bought our victory at an advanced rate. We are over 100 short this morning, and have about 15 or 20 in the hospital — We took seven prisoners; among them is Major Vulgen, (Bill Brown took him,) but I tell you those Minie rifle bullets do whistle some, sure I got off scott free again, though I had some close shaves, but it is awful to see the ghastly wounds on the poor fellows I really cannot be praying to see how they suffer Two Louisiana Zouaves have just been shot and killed instantly by their comrades in a row"

"Last night our forces made a sortie on Santa Rosa Island The force was 1400 men They succeeded in burning Billy Wilson's Zouave encampment, spiking their batteries, and killing many, and bringing some twenty prisoners — The skirmish is described as terrible. About fifty of our forces are killed, and fifty more wounded and missing. Gen Anderson, the commanding officer, was wounded in the arm Several of our officers were killed"

Pepple has uncommon long at Brighton. There are two men there so old that they have forgotten who they are, and there is nobody alive who can remember it for them

COMPLETING THE QUOTA OF 500,000 MEN The exigency of the case demands a vigorous effort now on the part of those States that have not sent in their quota of the volunteer army The Government needs and wants today the last man of the 500,000 in the field No matter if new recruits can be drilled with inferior old muskets, or, as in the South, with hickory poles and thus be prepared for actual service. Our motto must be fight, and our victories won; and the sooner we have a full army in the field, the easier will be our duties.—*Philadelphia Press.*

oct24

LATER

From the Upper Potomac.

Shelling of a Rebel Camp by our Batteries.

Death of Colonel Marshall of the Seventh Maine.

FROM THE FRONT.

EDWARD'S FERRY, 25th.

Last night our scouts went over the river and picketed the shore for half a mile back, north of Goose Creek, not a sign of a man or horse was heard except the splash of the oars of a boat some distance up the river This forenoon the rebel pickets are seen at various points on and near the river, above the Ferry—some are mounted and others on foot

No large bodies have been perceived, but it is known that they are concealed by the wooded range of hill, half a mile back from the river They still occupy the fort, but apparently not in any great force, although a very heavy body lies in their rear.

About midnight there was continued firing at the mouth of the Monocasy, it resulting from the shelling of a rebel camp by our batteries The enemy did not reply to our shells with any large guns At headquarters the affairs is not spoken as of any great signification.

The result of our firing has not yet been fully ascertained beyond the fact that the enemy retreated from their position. Their number is represented to have been small. Privates Tuttle, Clemence, Matter and Remond, of the 3d Wisconsin volunteers, were killed, and Private Ross, of Co C, 3d Wis, and Corporal Pratt, of Co A, 28th Pa., were taken prisoners by the rebels.

WASHINGTON, 26

Gen Hancock remained nearly the whole day at Vienna with a large force who reconnoitered the country in different directions for miles, without encountering any force of the enemy

Information received tonight represents everything as quiet along the whole line

Brig. General Stoneman, chief of the cavalry forces of the wing of the Potomac, will probably be promoted to a Major General The number of troops now under his command requiring an officer of that grade

James S. Gibbons of Philadelphia, will on Monday have in operation a train of 50 wagons for the carrying of freight between Washington and Baltimore This is necessary, owing to the blockade of the Potomac and almost exclusive use of railroad for government purposes.

The Secretary of War today promoted 20 Sergeants to 2d Lieutenants, among whom is Sergeant W. Griffin, who served 20 years under Gen Lyon sharing with him the dangers of every battle. The only favor ever asked of government by *you*, was the promotion of Sergeant Griffin

By direction of the President a Commission has been appointed, consisting of Hon David Davis of Ill., Hon Jos Holt of Ky., and Hugh Campbell of St Louis, to examine reports on all unsettled claims against the Military Department of the West, which may have originated prior to the appointment of the present General, at which time orders was issued that all moneys must be disbursed by regularly appointed agents of Government.

The rebel steamer George Page harbors in Quantico Creek, occasionally running out into the Potomac, but keeps well under cover of the rebel batteries She is confined to rather contracted ground. Her object is evidently to capture venturesome Union vessels, but she is narrowly watched

BALTIMORE, 27th

Col Marshall, of the Seventh Maine Regiment, died here today of typhoid fever He has been sick two weeks His regiment started for Washington this morning

HEADQUARTERS, PILOT KNOB, 24th

Col Boyd, commandant at this point, announces that the proclamation of Fremont is modified by the President, declaring martial law be rigidly enforced in Jefferson, St Francis, Washington and Ironton counties, and all persons taken in arms against the Federal Government or who have participated in any manner in burning or otherwise injuring Railroad or other bridges or cutting telegraphic or injuring any public property, will be summarily shot — Also that sympathizers with rebellion who are constantly raising the Iron Mountain Railroad stations and giving information to the enemy will be dealt with as spies.

ROLLA, 26th

Reliable reports say that a band of rebels who have been infesting the country west of here are concentrating at Springfield Also part of Prices army has arrived there

Report says that orders have been issued from the rebel headquarters requiring all the Texas troops to march to Monston, the Arkansas troops to Little Rock and the Missouri troops to camp Walker

LEXINGTON, Ky, 24th.

Information from Camp Wild Cat says Zollicoffer has retreated beyond Loudor, and supposed to be falling back to Cumberland

48 mounted rebels armed with U S muskets, and revolvers, and bowie knives, were surrounded and taken prisoners by 24 Home Guards under Captain Corneldock and Maj Buckner, also four others while aiding cavalry men to escape, and forty-two horses

LOUISVILLE, 25th.

The Courier of Bowling Green publishes a card from Breckinridge, avowing his intention to resign the Senatorship

A passenger from Nashville reports great suffering among the rebel troops at Bowling Green

A letter from Hopkinsville says seven out of 1500 rebels troops there are now and from 5 to 10 dying daily

PHILADELPHIA, 25th.

The Keystone State, with the prize steamer Salvor, arrived at the Navy Yard this afternoon. She encountered a severe gale off Hatteras, in which the Keystone State parted from her prize, and they drifted some 160 miles from each other but afterward joined company.

MRS. WINSLOW.

An experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation, will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves and relief and health to your infants. Perfectly safe in all cases See advertisement in another column.

sept3 1f

ALE PHYSICIANS AGREE

That "large and frequent doses of nauseous alcoholic medicines, taken into the stomach from time to time, must have a tendency to destroy the healthy tone of that vital organ of the human system," and it is well known to all the "medical profession" that the active principle of a gallon of such medicine can be found in a table teaspoon. Think, then, of the evil of giving that and nauseous drugs at the aforesaid table, that when more commonly the medicine, the more potent its effects, are now discarded by all sensible reasoners, and it is indisputably proved, beyond doubt, that BRYAN'S PULMONIC WAFERS, a medicine of the most agreeable character, composed entirely of the most efficient vegetable remedies, and their consequences, Coughs, Colds, and their consequences, Consumption, are effectually suppressed, and are so compounded as to render that only which will take away disease.

For sale by W. F. HEAD, Agent for Bangor.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body and obstructs its natural functions. [illegible] the surrounding organs [illegible] general aggravation, suffering and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb 4 1856

[illegible] Your Pills are the paragon of all that is great in medicine. They have cured my little daughter [illegible] and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr E W Cartwright New Orleans

[illegible]

Headache, Sick Headache Foul Stomach.

From Dr Edward Boyd, Baltimore

[illegible]

Pittsburgh Pa May 1 1855

[illegible] respect ED W PREBLE
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell of New York City

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington D C [illegible]

Sir I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours ALONZO BALL M D
Physician of the Marine Hospital

Dysentery, Diarrhoea, Relax, Worms.

From Dr J G Green of Chicago

Your Pills have had a long trial in my practice and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhoea*. Their sugar coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev J V Himes Pastor of Advent Church Boston

[illegible] I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours J V HIMES

Warsaw Wyoming Co, N Y Oct 24 1855

Dear Sir I am using your Cathartic Pills in my practice and find them an excellent purgative to cleanse the system and *purify the fountains of the blood*.

JOHN G MEACHAM, M D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc

From Dr J P Vaughn, Montreal Canada

Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs E Stuart, Physician and Midwife, Boston

[illegible]

From Dr Ezra Hall of [illegible] Chicago

[illegible]

Senate Chamber Baton Rouge La [illegible] Dec 1855

Dr Ayer. I have been entirely cured by your Pills of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

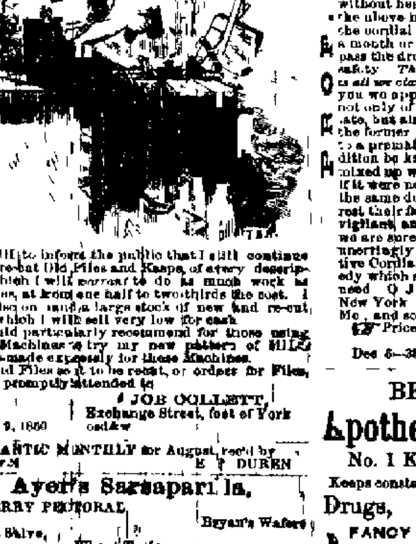
FILE CUTTER



I WISH to inform the public that I still continue to re-cut Old Files and Rasps, of every description which I will *warrant* to do as much work as new ones, at from one half to two-thirds the cost. I have also on hand a large stock of new and re-cut Files, which I will sell very low for cash.

I would particularly recommend for those using Mill [illegible] Machines to try my new pattern of MILL FILES made expressly for those Machines.

All old Files sent to be re-cut, or orders for Files, will be promptly attended to.

Greatest Improvement of the Age.

The Good Samaritan!

VENTILATED OVEN,

COOKING STOVE!

We are sole AGENTS for BANGOR and vicinity for the celebrated Cooking Stove.

GOOD SAMARITAN.

THIS STOVE was patented by Messrs. Rathbone & Co., of Albany, July 19 1859, and although but little more than a year has expired since it was first operated, its many wonderful feats in cooking have already placed it far in advance of any other Stove which has as yet been offered to a discriminating public. We claim for the Good Samaritan that its economy of fuel, its simplicity of arrangement and real practical utility of the conveniences which surround it, have placed it far in advance of any stove yet offered to the world. We will name a few of the advantages which it possesses over any other stove, as well as some of the conveniences which attend it.

1 It has greater weight of castings than the bare stove weighing from 400 to 450 pounds.

2 Greater capacity for baking. It has a very large Oven and also conveniences for baking on the top of the stove. It has also a large front roaster or baking bread, pies, &c, or roasting meat and this without danger of contaminating with the same taste the finest delicacies being baked in the oven of the stove, an advantage which no other stove using the roaster possesses.

3 Its perfect control of heat. The Good Samaritan has a treble draught arrangement which enables the operator to use as little or great a fire as he chooses. The advantage which this arrangement gives over any other economist of fuel is that while a fire may be started in the cold stove in from one third to one half less time, the operator can after his fire is once started, lessen the draught as much as he pleases, even to closing it entirely—thus giving him perfect control of the heat.

4 It has a soap stone fire back which will never burn out and consequently will not need replacing. Soap stone is used very extensively as a lining to coal stoves, as it is well established that nothing else will stand the effect of intense heat for so great a length of time.

5 Its accommodations for broiling are perfect and unequalled. It has a splendid arrangement for broiling on the hearth, giving a perfect draught, through, under and around the gridiron into the flues of the stove keeping the coals alive and carrying off all smoke and gases arising from the food—It will also broil very nicely upon the top without the smoke entering the room. This is accomplished by closing the draught and can only be effected by a perfectly air tight stove.

6 Its arrangement for the ventilation of the oven cannot be excelled. It is effected by holes in the front door of the stove through which the fresh air passes, striking against the front plate of the fire chamber, (thus becoming heated before entering the oven) then through the ventilating camper into the oven. The steam which is freed of gases arising from the food which will naturally rise to the top over the front oven plate, behind the fire back into the fire chamber where they are consumed, (thus adding fuel for combustion) and also to the perfect draught of the stove.

7 The Good Samaritan has [illegible] ed itself to be the most economical as well as the most convenient stove in the world. The great advantage it possesses of being able to do a greater variety of cooking at once with greater rapidity of operation, and to be lightly passed over. None who have ever examined it closely can doubt [illegible] but that, with ordinary usage, it must last from [illegible] years. They can base this belief on its great weight and the small quantity of fuel necessary to operate it—for the less fuel consumed the longer a stove will wear.

8 That it possesses all the attributes and qualities for a first class stove in the height of perfection is no longer an experiment, but an established fact. That it has no equal we are fully prepared to demonstrate to all impartial persons and solicit all whether wishing to purchase or not, to call and see the stove and be convinced of the truth of these statements.

We desire every house keeper in Penobscot County to call and we think they will be fully repaid by examining the merits of this wonder of the age.

Description pamphlets and all information will be cheerfully furnished by us at our store,

WOOD & BISHOP.

Bangor Sept 2s [illegible]—tf

PROF. WOOD'S

RESTORATIVE CORDIAL

AND

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste it is revivifying, exhilarating and strengthening to the vital powers.—It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature and hence soothe the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world both by the thoroughly skilled in medical science and also by all who have suffered by debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such for example as the following: Consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, giddiness and all that class of cases so fearfully fatal if unattended to in time, called *female weakness and irregularities*. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water, hence all travellers should have a bottle with them and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty, for beauty cannot exist without health and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, before it be too late, but also your sons and husbands for while the former from false delicacy often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O J WOOD, Proprietor, 444 Broadway New York and 114 Market Street, St Louis Mo, and sold by all good Druggists.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind, 6th June, 1859

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr Robert M. Preble writes from Salem, N. Y. 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr J B S Channing of New York City writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S Marrow of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859

DR. J. C. AYER, Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G V LARIMER M D

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859

DR J C AYER. Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM

Jules Y Getchell of St Louis writes: "I have been afflicted for years with an *affection of the Liver* which destroyed my health. I tried every thing, and every thing failed to relieve me, and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me [illegible] I feel young again. The best that can be said of you is not half good enough."

Schirrus Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF

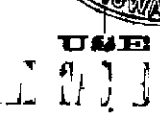
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr J. C AYER & CO Lowell, Mass.

CARRIAGES'

CARRIAGES! CARRIAGES!!



THE SUBSCRIBER hereby gives notice that he has been appointed agent for the sale of Sargent, Harlow & Co's Top, Carriages [illegible], which he is prepared to deliver [illegible]

YOU CAN'T FIND

An Article that Suits as Well as

☞ HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

Apothecaries and consumers all testify that

It is the Only Reliable Article

FOR THE BALD AND GRAY.

Read the testimony from Kentucky

PADUCAH, KY., July 27, 1860

MR W A BELL

Dear Sir—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied, from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing*.

Yours truly, JOHN G DALY

PADUCAH, KY, July 27, 1860

MESSRS W. E. HAGAN & CO Troy N Y

Gents—Above please find statement of Mr John G Daly a merchant of our city in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by Railroad double the quantity we had before.

Very truly yours W A. BELL

IT WILL RESTORE THE NATURAL COLOR OF THE HAIR,

where age or sickness has turned it gray, and it will render it soft and glossy

"ANYBODY"

who may try it will find that it does not color the skin, but by stimulating the natural secretions at the roots gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp and with as much safety—is composed of oil and stimulating spirits, and as an article for the toilet has no equal.

☞ Read this Letter

ST LOUIS, Mo June 1st 1859

MESSRS W. E HAGAN & Co

I hereby certify that my Hair having become gray and my head partially *bald* I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use my Hair was restored to its original color and thickness, it removed all dandruff, arrested its falling and gave it a rich glossy appearance. Its effects were entirely different from any Hair Preparation I ever used before. I know of several ladies and gentlemen, my intimate friends who all speak of the "Inimitable" as being the best and cheapest Hair Preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WILLIAM BOSBYSHALL

Read one of the many letters received by the Proprietors.

ST LOUIS Mo Aug 2, 1860

Messrs W E HAGAN & Co Troy N Y—Gents This happy results attending the use of *Heimstreet's Inimitable* (in every sense of the word) *Hair Restorative*, seems to demand that I should give my testimony that other ladies might profit by it. I have never used a hair preparation that I liked so well. It has *completely restored* every hair that was grey to the color it was in girlhood and has brought it out thick and healthy. I was induced to use the article by Mr Reynolds your Agent here. If this letter will be of service you may publish it.

Very respectfully yours

THE ONLY PREPARATION

THAT HAS

Stood the Test of Years,

And grows more and more popular every day!

AND testimonials new and almost without number [illegible] from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof Wood's Hair Restorative will restore the bald and gray and preserve the hair of the youth to old age in all its youthful beauty.

BATTLE CREEK, Mich Dec 21, 1858

Prof Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—the reward is to those that are kind to the widow and the fatherless.

Thy friend SUSANNAH KIRBY

LIGONIER Noble Co Indiana Feb 5, 1859

Prof O J Wood—Dear Sir In the latter part of the year [illegible] while attending the State and National Law School of the State of New York my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but receiving no assurance from them that my hair could again be restored I was forced to become reconciled to my fate until fortunately in the latter part of the year [illegible] your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars worth of your Restorative and as a result have a rich coat of very soft black hair which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article I have recommended its use to many of my friends and acquaintances who I am happy to inform you are using it with like effect.

Very respectfully yours A M LATTA,
Attorney and Counsellor at Law

The Restorative is put up in bottles of three sizes, viz: large, medium and small. The small holds ½ a pint and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion and retails for three dollars.

DR SWEET'S

Infallible Liniment!

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders,

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail.

FOR NEURALGIA, it will afford immediate relief in every case however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

For NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissue, it strengthens and revivifies the system and restores it to elasticity and vigor.

FOR PILES.—As an external remedy we claim that it is the *best* known and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief and in a majority of cases will effect a *radical cure*.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS yield readily to the wonderful healing properties of *DR SWEET'S INFALLIBLE LINIMENT*, when used according to directions. Also, CHILBLAINS, FROSTED FEET and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the signature and likeness of Dr Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO
